

PLACCEL 308

Polycaprolactone triol

<Description>

PLACCEL 308 is a polycaprolactone triol and its molecular weight is 850. Since it is manufactured by the ring opening polymerization of epsilon-caprolactone, exact control of hydroxyl group value is possible and there is no variation in quality.

PLACCEL 305 is a raw material for CASE (Coating, Adhesion, Sealant, Elastomer). It can be used as modifying agents or cross linking agent for polyurethane, paint resin, epoxy resin and so on.

<Composition / Information on ingredients>

Chemical Name & CAS No.	Composition & % Weight	USE (%)
Polycaprolactone triol	100%	100%
