

PLACCEL 320

Polycaprolactone triol

<Description>

PLACCEL 320 is a polycaprolactone triol and its molecular weight is 2000. Since it is manufactured by the ring opening polymerization of epsilon-caprolactone, exact control of hydroxyl group value is possible and there is no variation in quality.

PLACCEL 320 is a raw material for CASE (Coating, Adhesion, Sealant, Elastomer). It can be used as modifying agents or cross linking agent for polyurethane, paint resin, epoxy resin and so on.
